IF YOUR PROJECT INVOLVES LANDSCAPING—whether on a residential, commercial or municipal scale—your trees, shrubs and groundcover need to be of a suitable size and quality to achieve a desirable result. A reliable supply of such stock is paramount.

Too often landscaping is left until the last moment or suffers because of a tight budget when, in fact, planting returns the best value for money when compared to any other part of your project.

At Easy Big Trees we provide an outstanding choice with over 30,000 semi-mature trees and shrubs in stock, grown in containers. These are expertly maintained with most available for immediate delivery.

We offer contract growing of trees in advance for future projects. If we do not have what you want, we can get it. You can trust Easy Big Trees to deliver the goods and exceed your expectations.

PREMIUM QUALITY PLANTS & SUPERIOR RANGE

As a specialist grower of semi-mature trees and shrubs, we offer an outstanding range of larger European deciduous trees, medium sized feature and flowering trees, New Zealand natives and evergreens.

Our stock, grown in containers from 8 to 1,000 litres, is carefully selected for hardiness and vigour ensuring their ability to establish and thrive in a wide range of situations anywhere in New Zealand.

SUPPLYING A WIDE RANGE OF PROJECTS

Our diverse range of projects include fine residential homes, motels, rest homes, hospitals, schools, residential and commercial subdivisions, commercial parks, golf courses, new townships and city centre schemes. We are established suppliers to many property developers, councils, architects and landscape contractors NZ wide.

PROFESSIONAL CARE

All plants are grown and maintained to a quality standard using the latest efficient and eco-friendly technology as well as handling, packaging and freighting undertaken with experienced care.
