

Top 10 Autumn Colour Trees

ACER PLATANOIDES - NORWAY MAPLE

A fast growing, broadly columnar tree. Has broad five lobed leaves, which are bright green turning golden yellow in autumn. Widely used in street planting. Excellent shade tree. Hardy, tolerates dry conditions, grows to 12m+.

FRAXINUS 'RAYWOODII' - CLARET ASH

A very popular tree well known for its striking wine red to claret coloured foliage in early autumn. Has fine green foliage during summer and forms into a rounded tree. Tolerates dry conditions. Deciduous, grows to 10 x 5m.

ACER RUBRUM - RED CANADIAN MAPLE

A vigorous, tall tree with large, dark green leaves that are glaucous on the undersides. Spectacular, red and scarlet tones over autumn add to the appeal of this majestic specimen tree. Deciduous, hardy, grows to 10m

LIQUIDAMBAR 'WORPLESDON' - SWEET GUM

Our most hardy and tidily shaped Liquidambar. Upright pyramidal form more wind hardy than other forms. Beautiful autumn colours early autumn beginning with gold and then to vibrant orange, red and crimson-purple. An excellent smaller tree for avenues, laneways and entranceways.

AMELANCHIER CANADENSIS - SHAD TREE

Hardy attractive shrub or small tree. White starry flowers cover the tree early spring with fresh coppery growth providing good contrast. Small berries follow which are attractive to birds. Great autumn display with yellow, orange, crimson to purple colour. Hardy, deciduous, grows to 4 x 3m.

PRUNUS VAR. - FLOWERING CHERRY

Attractive small spreading tree with masses of flowers early spring. Vibrant orange to red autumn colour. A popular old favourite blossoming cherry. Deciduous, grows to 6 x 5m.

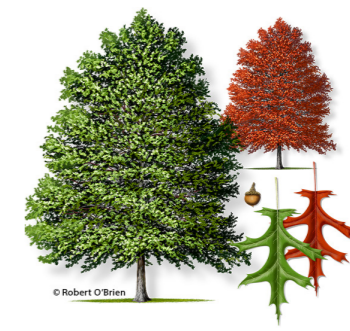

CARPINUS BETULUS 'FASTIGIATA' - UPRIGHT HORNBEAM

Upright columnar to pyramidal tree with very tidy and compact form. An excellent tree for smaller avenues and gardens. Also makes a very tidy street tree. Very hardy, deciduous, grows to 5m.

QUERCUS PALUSTRIS - PIN OAK

A popular tree with pyramidal habit and magnificent red autumn colour. Widely used for avenue and street planting and will also tolerate growing in root-restricted areas such as car parks or courtyards. Deciduous, grows to 8 x 6m.

FAGUS SYLVATICA - ENGLISH BEECH

A stately spreading tree often found majestically in parks. Fresh medium green leaves grace the tree in spring turning to brilliant golds and then copper late autumn. Retains some copper foliage throughout the winter. Deciduous, grows to 12m+.

ULMUS HOLLINDICA 'LOBEL' - UPRIGHT ELM

A large-growing hardy tree with dark green foliage and broadly columnar form. A great street or avenue tree that will tolerate salt winds. Autumn foliage brilliant gold. An ideal hardy street, avenue or shade tree. Hardy, deciduous, grows to 15 x 8m.
